

## UPGRADE TELEXMAX TO TELEXMAX EVO

### FEATURES

- » Modern, sustainable operating concept Robo Command with multi-touch screen and ergonomic design
- » Fully integrated and modular IP Mesh radio transmission with optional repeaters
- » Accessories and tools backwards compatible with previous model telemax
- » HD Pan/Tilt/Zoom camera and simultaneous display of four video feeds (quad view)
- » Quad view function
- » Fully integrated 2-way audio module
- » Existing telemax will be upgraded to telemax EVO and tested in our Telerob Service Center in Ostfildern

### BENEFITS

- » Intuitive touch controls based on applications known from tablets and smartphones
- » Stable and fast exchangeable transmission of radio signals covering large territories
- » High-resolution image quality
- » Simultaneous display of four video feeds
- » Reliable two-way communication
- » Tried and tested Telerob quality with 12 months warranty
- » Following models can be upgraded: telemax 4x4, telemax PRO, telemax HYBRID (beginning with serial number 078), telemax PLUS

The upgrade requires a complete and fully functional telemax.
