

UPGRADE TELEXMAX TO TELEXMAX EVO

_Key Features

- › Modern, sustainable operating concept Robo Command with multi-touch screen and ergonomic design
- › Fully integrated and modular IP Mesh radio transmission with optional repeaters
- › Accessories and tools backwards compatible with previous model telemax
- › HD Pan/Tilt/Zoom camera and simultaneous display of four video feeds (quad view)
- › Quad view function
- › Fully integrated 2-way audio module
- › Existing telemax will be upgraded to telemax EVO and tested in our Telerob Service Center

_BENEFITS

- › Intuitive touch controls based on applications known from tablets and smartphones
- › Stable and fast exchangeable transmission of radio signals covering large territories
- › High-resolution image quality
- › Simultaneous display of four video feeds
- › Reliable two-way communication
- › Tried and tested Telerob quality with 12 months warranty
- › Following models can be upgraded: telemax 4×4, telemax PRO, telemax HYBRID (beginning with serial number 078), telemax PLUS

[The upgrade requires a complete and fully functional telemax.]
